Re: KVS2025-S-026

Date: 20 Aug 2025

To: Our Valued Business Partners & Customers

We are pleased to inform you that we are promoting our newly launched BX Pneumatic Actuator (compact design) & KCV Series Control valve that enable our clients to enjoy a seamless operation both for Project & servicing / maintenance of your Plants under reliable Kitz Brand.

KITZ **NEWS**
Patent and Design Pending

New Generation Pneumatic Actuator with Compact Design

**New Pneumatic Actuator
BX Series**

**EVOLUTION &
DEEPENING**

Double Acting : BX-3 Single Acting : BXS-3

RS-3(Existing model) BXS-3(New model)

Features

- High durability actuator
- NAMUR standard shaft (Except size 0)
- Compact & Lightweight
- Optimal actuator sizing
- Prevent water entering from drive shaft

Size comparison (BS-1(OUT80) vs BXS-1(OUT80))
*Not applicable to all combinations of actuators and valves in size comparison.

KITZ CORPORATION

**(KITZ launches its own brand
Control valves)**

KCV Series

YMS-10/20/150/300UKCV, YMS-10/20/150/300SKCV

Features

- Employs top-guided, single-seat structure with a simple streamlined flow path to minimize pressure loss.
- Employs a seat retainer that ensures excellent maintainability and allows easy seat replacement.
- Implements a compact, multi-spring diaphragm actuator for superior control performance and reduced weight.
